PROFESSIONAL EXPERIENCE

Fulton County School District, Atlanta, GA

2021–2024

Media & Educational Technology Instructor

- **Developed and implemented innovative e-learning strategies**, resulting in a 20% increase in student engagement and a 15% improvement in technology literacy scores among elementary-grade students.
- **Led the adoption of new learning management systems (LMS)**, which streamlined the digital classroom experience, culminating in a 25% reduction in administrative time for educators and a significant increase in lesson accessibility for students.
- **Designed and conducted professional development workshops** on integrating technology in the classroom, enhancing the competencies of 50+ teachers, which directly contributed to a 30% improvement in overall teaching effectiveness as reported in teacher evaluations.

City Schools of Decatur School District, Decatur, GA

2019–2021

Educator

- **Initiated and spearheaded a digital literacy curriculum**, aligning with current trends and technologies, which was adopted across multiple grades and witnessed a 40% increase in student proficiency in digital tools and resources.
- **Tailored complex technological concepts into accessible, age-appropriate lessons**, resulting in a notable improvement in clients' problem-solving and critical thinking skills, evidenced by a 35% increase in participants' scores in STEM-related projects.
- **Utilized data analytics to refine and adapt teaching methodologies and materials**, leading to a 10% year-over-year improvement in student performance metrics, demonstrating the effective use of feedback and data in instructional design.

Dekalb School District, Stone Mountain, GA

2017–2019

Educator

- **Collaborated with subject matter experts and stakeholders** to identify learning objectives and determine the most effective methods of instruction, resulting in a 20% increase in student satisfaction with the course content.
- **Ensured accessibility and inclusivity** by designing learning materials that catered to diverse learning styles, needs, and backgrounds, creating an equitable learning environment for all students.

- **Continuously evaluated and updated teaching strategies** based on current research and best practices, ensuring that lessons remained relevant and engaging for students.
